Projects

Portfolio Rebalancer | MERN Stack | GitHub **Mar 2026 – Mar 2026**

- Engineered a Wealth Management Platform using React and Express.js, featuring as automated portfolio rebalancing engine that calculates asset drift and generates actionable buy/sell recommendation based on target model allocation.
- Architected a Robust Data Layer utilizing SQLite to manage complex relational data for client portfolios, historical rebalancing sessions, and dynamic model fund configurations, ensuring data integrity during transactional updates.
- Developed an Interactive Financial Dashboard with real-time data visualization, providing advisors with deep insights into portfolio health, asset distribution, and historical activity logs to streamline investment decision-making.

Tech: React, Vite, CSS3, Node.js, Express.js, SQLite/SQL

Mobile Device Management System | Spring boot | GitHub **Feb 2026 – March 2026**

- Build a full-stack Mobile Device Management (MDM) platform using Spring Boot, React, PostgreSQL, Redis, and JWT-based authentication.
- Implemented core device operations including heartbeat processing, searchable device inventory, inactive-device tracking, and audit timelines.
- Developed app-version rollout workflows (scheduling, passed progression, failed-device retry).

Tech: Spring Boot, Spring Security, JPA/Hibernate, PostgreSQL, Redis, React, Vite, Tailwind CSS, REST APIs, JWT

Sikkim Monastery Tourism | MERN Stack | GitHub **Nov 2025 – Jan 2026**

- Delivered a highly interactive tourism platform that improved user experience through AI-based itinerary generation, Monastery recommendations, and multilingual support.
- Optimized content workflows using a full CMS with Cloudinary image management, significantly reducing manual admin tasks.
- Enhanced discoverability and engagement with fast search, detailed monastery pages, and a fully responsive, visually rich UI.

Tech: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Cloudinary, JWT, REST APIs

Certificates

Master Generative AI & Generative AI tools
Infosys Springboard — Link **Aug 2025**

Build Generative AI Apps and Solutions with No-Code Tools
Infosys Springboard — Link **Aug 2025**

Cloud Computing
NPTEL — Link **Apr 2024**

Introduction to Front-End Development
Coursera — Link **Jan 2024**

Technical Skills

Languages: Java, Python, C++, JavaScript, Kotlin, PHP, SQL

Frameworks: React.js, Node.js. Express.js, Jetpack Compose, Room Database, HTML5, CSS3, Spring Boot

Tools/Platforms: MySQL, MongoDB, PostgreSQL, Git, GitHub, Postman, Android Studio

CS Fundamentals: DSA, Object-Oriented Programming, Operating Systems, Database Management Systems

Education

Lovely Professional University Punjab *Jalandhar, Punjab*
Bachelor of Technology — Computer Science and Engineering — CGPA: 8.18 **2023 – Present**

DAV Public School *Raigarh, Chhattisgarh*
Intermediate — Percentage: 84.2 **2021-2022**

DAV Public School *Raigarh, Chhattisgarh*
Matriculation — Percentage: 91.6 **2019-2020**
